

AMENDMENTS TO THE CLAIMS

Claim 1. (currently amended): A scooter bike comprising:

a front and rear bicycle wheel attached to a frame with handle bars and a bicycle seat, the rear bicycle wheel being larger in diameter than the front bicycle wheel by around 2 inches;

a solid scooter floor attached to said frame between said two bicycle wheels, said scooter floor being in proximity to the ground, said scooter floor being sloped with its front lower than its rear, said slope being around 10 degrees with said scooter floor being around 6 inches above the ground at its rear and around 5.5 inches above the ground at its front, whereby said scooter floor allows propulsion by foot power.

Claim 2. (cancelled).

Claim 3. (original): The scooter bike of claim 1 wherein said seat is around 16 inches from said handle bars.

Claims 4-5. (cancelled).

Claim 6. (original): The scooter bike of claim 1 wherein said front wheel is around 24 inches in diameter and said rear wheel is around 26 inches in diameter.

Claim 7. (original): The scooter bike of claim 1 wherein said frame is aluminum.

Claim 8. (currently amended): A scooter bike comprising:

a front and rear bicycle wheel attached to a frame with handle bars and a bicycle seat, the rear bicycle wheel being ~~[larger]~~ around 26 inches in diameter ~~[than the]~~ and the front bicycle wheel being around 24 inches in diameter;

a solid scooter floor attached to said frame between said two bicycle wheels, said scooter floor being ~~[in proximity to the ground, said scooter floor being sloped with its front lower than its rear,]~~ around 6 inches above the ground at its rear and around 5.5

inches above the ground at its front, whereby said scooter floor allows propulsion by foot power;

~~[said front wheel being around 2 inches smaller than said rear wheel and]~~ said scooter floor sloping downward around 10 degrees in front.

Claim 9. (original): The scooter bike of claim 8 wherein said seat is around 16 inches from said handle bars.

Claims 10-11. (cancelled).

Claim 12. (original): The scooter bike of claim 8 wherein said frame is aluminum.

Claim 13. (new): The scooter bike of claim 8 wherein said floor is metal.

Claim 14. (new): The scooter bike of claim 8 wherein said floor is around 16 inches long.
